

## Trails (technical specification)

J10

2- **The 68mm square beams** are made of laminated timber, which have not been treated with chrome or arsenic. Splinter-free, the laminate provides great strength and dimensional stability. The posts are protected from wear and tear caused by fungi and insects.

4- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

5- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
