

Swings

(technical specification)

J472

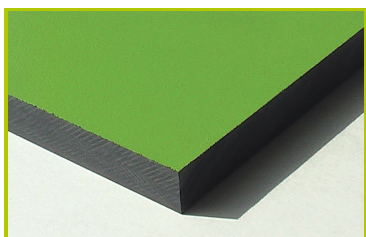

1- The **support legs** are made from 60mm galvanized steel.

2- The **horizontal beam** is manufactured from 89mm diameter galvanized steel.

3- The **swing bearings** are made of stainless steel.

4- The **coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

5- The **swing seats** are made of shock absorbing moulded honeycomb rubber.
The swing chains are made of stainless steel.
The seat fixing brackets are made of 10mm stainless steel wire.
PVC sliding rings are fitted to limit the wear of the metal parts over time. The rings are accessed by a vandal proof, stainless steel shackle.

6- The **fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
