

(technical specification)

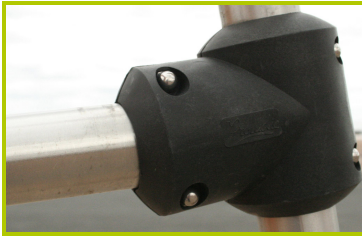

J5913

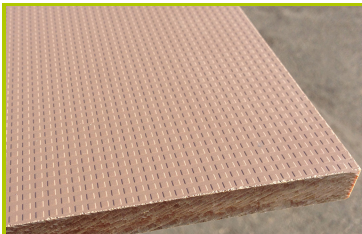

1- **The 125mm diameter posts** are made of painted galvanised steel. The grained finish has a slightly undulating surface for increased scratch resistance. The caps are made of rotary moulded polyethylene.

2- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

3- **Injection moulded polyamide fixings** connect the posts with the platforms and the various play features. They are non-toxic, flameproof and U.V. resistant. The thickness of the polyamide makes the equipment both strong and vandal resistant.

4- **The platforms** are made from a 12.5mm thick textured and non-slip compact material (HPL).

5- **The 16mm diameter rope** is made of galvanised steel cable covered with polyester.

6- **The cables** are linked together and held in place by injected polyamide spheres.

7- **The strap** is made of 3 ropes linked together with aluminium pliers. Each rope, of 16mm diameter, is made up of galvanized steel cables covered in polypropylene.

8- **The one-piece rail** is made of stainless steel, Ø 76.1mm, 3.6mm thick. The trolley is made of stainless steel ensuring its durability.

9- **The handle** is made of of stainless steel.

10-**The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
