

Swings

(technical specification)

J437

1- **The 95 x 95mm posts** are made of painted galvanized steel, ensuring robustness and durability.

2- **The horizontal beam** is manufactured from 89mm diameter galvanized steel.

3- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

4- **The swing bearings** are made of stainless steel.

5- **The Parent/Child seat** consists of 2 seats, connected by a painted stainless steel structure.
The Parent seat is made of shock absorbing moulded honeycomb rubber. The seat fixing brackets are made of 10mm stainless steel wire.
The pod swing seat for early childhood is made of polyurethane, which ensures a comfortable seating.
The swing chains are made of stainless steel.

6- **The classic swing seat** is made of shock absorbing moulded honeycomb rubber.
The swing chains are made of stainless steel.
The seat fixing brackets are made of 10mm stainless steel wire.
PVC sliding rings are fitted to limit the wear of the metal parts over time. The rings are accessed by a vandal proof, stainless steel shackle.

7- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
