

# L'aventure dans la nature

(technical specification)

J49411

- 1- **The different posts** are made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.  
The coloured panels are using a staining process.

- 2- **The boards** are made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.  
The coloured panels are using a staining process.

- 3- **The slide** is made of stainless steel.

- 4- **The 16mm diameter rope** is made of galvanised steel cable covered with polyester.

- 5- **The abacus spheres** are made of polycarbonate sheets.

- 6- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
