

# Climbing and balancing trails (technical specification)

J49160

1- **The 120 to 140mm diameter posts** are made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

2- **The seat** is made from rubber, 13mm thick.

3- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

4- **The 12mm diameter rope** is made of galvanised steel cable covered with polyester.

5- **The net fittings** are made of aluminium. The fittings are composed of two distinct parts for ease of maintenance of individual strands.

6- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
